Sweetly[®]
— STEVIA —

**GRANULATED
SWEETENER**

TASTES LIKE SUGAR

ALL NATURAL

NATURALLY Sourced Sugar Alternative

PRODUCT CODE: 039

PERFECT FOR HOT & COLD BEVERAGES, YOGURT, GELATO & ICE CREAM

**Zero-Calorie Granulated Blend
Diabetic I & II Friendly**

A diabetic friendly all-natural sweetener, perfect for hot and cold beverages. This blend also works great in homemade yogurts, gelato, and ice cream. It is a zero-calorie sugar replacement solution for diabetics and those looking to live a healthy lifestyle without giving up their favorite sweet treats and beverages.

Product Description

This 100% All-Natural Organic blend of Sweetly® Stevia is formulated with highly-purified stevia Rebaudioside A(Reb A) extract from the **Stevia Rebaudiana Bertoni** leaf. With the finished product being white granules, very similar to crystalline sugar.

It is ideal for use in tabletop sweetener applications. These applications include single-serve sachets to be used in coffee shops, restaurants, and sold in grocery stores. It can also be sold in bulk to be used in food and beverages either at the manufacturer level, restaurant or bakery level, or for at-home use.

Your Home or Business

Sweetly® Stevia 100% All-Natural blend is a refreshingly uncomplicated zero-calorie sweetener. You can sprinkle it on your cereal, spoon it in your tea or coffee, or add it to the list of ingredients for your food or beverage products. With our sustainably sourced materials, 100% recyclable products, and environmentally friendly packaging right down to the ink, Sweetly® Stevia won't end up on your conscience, or your thighs.

Sweetly® Stevia's patented process is water extracted – no ethanol, methanol, or rubbing alcohol. Our process is 100% natural and results in a product that genuinely tastes like sugar – with no aftertaste!
